LET'S GET STARTED

1

Send RX to V-Care Pharmacy.

Send V-Care a prescription by E-script, a fax/faxed referral form, or verbally over the phone.

2

We conduct benefits investigation for coverage.

V-Care also provides prior authorization support and hub service support.

3

We call the patient to offer a walk-in pharmacy injection or injection by provider.

If the injection is administered by the provider, we offer coordination & free delivery to the office.

4

Once enrolled in our program, we keep track of injection dates as well as schedule and arrange maintenance injections.

REQUIREMENTS

- **Prescription records must be at the pharmacy providing the injection.** Send V-Care Pharmacy a prescription via E-script Rx, Fax, or verbally over the phone.
- **Patient must be established on therapy.** We can give maintenance doses after the first initial injection is given by the provider.
- **Please notate on patient's Rx the patient's last injection date** as well as their preferred area of injection (gluteal, deltoid, etc).
